Sir,-

Subject Continuance of the Box-drain gang

With reference to your letter No L 1310 dated 25-8-1945, calling for particulars in the matter of the continuance of the temporary box-drain gang establishment, I have the honour to enclose herewith a copy of the Health Officer's Report No nil dated 18-3-45 and also Hl PR 448/45-46 dated 5-3-46 explaining the necessity for the entertainment from 15-4-45 of the above staff which is exclusively meant for the clearance of box-drain work and as it is a whole time job, sweepers and scavengers cannot be entrusted with the work to the prejudice of their normal routine scavenging duties It was therefore found necessary to continue the special gang for this purpose

The Municipal Council have accordingly passed a resolution in No.502 dated 20-12-45 sanctioning the further continuance of the establishment for another six months, a copy of which is herein enclosed

It is to be stated that the establishment first entertained for one month from 15-4-45 as sanctioned in council resolution No 847/27-4-45 was later extended upto end of 14-11-45, as sanctioned in council resolution No 990/13-6-45, the total period involved thereby being 7 months The council have now resolved to further extend the period by 6 months for the continuance of the gang in council resolution NO 502 dated

dated 20-12-45 Thus the entire period involved will be one year and one month I request you kindly to obtain sanction of Government for the continu nce of the above gang for a total period of ome year and one month only from 15-4-45, as resolved by the municipal council

Subject Continuance of the Box drain gang up to end of June 1946

--

Adverting to your letter No M5 9-42/ß 45 dated 30-8-1945 and Memo No M5 C 502/20-12-45 calling for certain particulars in connection with the continuance of the above establishment, I have the honour to state that the above gang was entertained in the first instance from 15-4-1945 for cleaning the silt in the main drains of the city and it was later found necessary to continue the same as there was a lot of work still to be done The Council therefore sanctioned the above continuance in their reoluation No 990 dated 30-6-1945, which was duly forwarded for approval of Government

The box drain work requires a special gang It is wholetime job and the sweepers and scavengers cannot look after this work without prejudice to general sanitation work If the box drains are not cleared of silt & regularly, it may give rise to stagnant collections of water which may breed mosquitoes

In fact, it is on this account and also on account of the non completion of the work still, the Health Committee recommended the continuance of the above gang upto end of June 1946 in their resolution No 208 dated 13-11-1945, which the Municipal Council have approved in their resolution No.502 of 20-12-45

In these circumstances, I request you to kindly obtain sanction of Government to continue the above gang for a period of one year from 15-5-1945 as per the resolutions Nos 990/ 30-6-45 and 502/20-12-45 of the Municipal Council

Letter No nil dated 18th March 1945 from the Health Officer, Mysore City Municipality, Mysore to the President, City Municipal Council, Mysore.

I have the honour to place before you the following facts for favour of kind information, approval and orders

1 Out of 12 peeple of Septic tank situated in the Farm, 6 were drafted on, to look after the main drain for the removal of silt sometime back

2 I am glad to inform you that these six people have been turning out very good work in the removal of silt from the main drain so far

3 Inspite of all their best efforts, it is still observed that a major portion of the length of main drain, about 2 furlongs in extent situated parallel to Church road and extending from Kamani Darwaza to Hardinge circle still remains unattended, for want of required number of hands

4 The silt accumulated in this bit of drain, for several years past, has now formed several small pools and puddles which have become the breeding place of mosquitoes Apart from this, the smell nuisance is also unbearable due to summer season.

5 It is felt very highly desirable to take up prompt action in the removal of the silt along the whole length of this drain without any further dealy

6 A minimum number of 20 men on a pay of ₹s.10+5 each p.m. would be required at least for one month to attend to this important section of the main drain, the total cost amounting to Rs 300/- This expenditure would be met out of the amount sanctioned in the Budget under the head 'Malaria Control work'

I request you therefore to kindly pass orders for the immediate entertainment of 20 gangmen as mentioned above for one month and to permit me to get the orders of the members of the Health Committee by circulation to enable me to start the work immediately
